These papers were turned over to the Director in the presence of witnesses, no receipt was asked for, or received, he promised to return the same ON DEMAND, & if they were in any part claimed by any else I was to have at least 48 hours to defend the claim, the letters are of the greatest importance to me they are strictly of a private nature & were only surrendered on request, among the lot was also my letters of discharge & several letters from Dr. Townsend describing how my dismissal was brought about.

I have written to the Director, in a gentlemanly way, but have not been replied to, I only desire the return of papers that are of great personal value to me & that ^{they} are practically useless to the Dept. is a foregone conclusion.

May I ask sir that you aid me in at least receiving a reply so that I may KNOW just what to expect.

I AM SIR:

YOURS VERY RESP.
